Great.

Who are the Generators and is the same USE Profiles?

Thank you.

Hi Chris.

Is this material going to be designated to Veolia ERD or are we transporting to US Ecology?

Additional Waste Shipments

Location: 6598 Ray Nixon Road, Fountain, CO 80817

Waste: Vanadium Pentoxide (See attached profile)

Hours of Operation: 0800-1500

Accessibility: Waste storage room accessible by truck

Waste Storage: 0.4lbs of waste lab packed into a 5 gallon bucket

Location: 1521 Hancock Expressway

Waste: PCB pipe (See attached profile)

Hours of Operation: 0700-1530

Accessibility: PCB storage area accessible by truck. CSU employees can load waste pallet onto truck

Waste Storage: 1 pallet of PCB waste (possibly two pallets at time of shipment)

Thank you.

Good Afternoon Yvette,

In addition to the original waste shipment we have been coordination, CSU has two additional waste streams at two separate locations which need to be transported to US Ecology. Below is the information you requested per our phone conversation earlier today.

Additional Waste Shipments

Location: 6598 Ray Nixon Road, Fountain, CO 80817

Waste: Vanadium Pentoxide (See attached profile)

Hours of Operation: 0800-1500

Accessibility: Waste storage room accessible by truck

Waste Storage: 0.4lbs of waste lab packed into a 5 gallon bucket

Location: 1521 Hancock Expressway

Waste: PCB pipe (See attached profile)

Hours of Operation: 0700-1530

Accessibility: PCB storage area accessible by truck. CSU employees can load waste pallet onto truck

Waste Storage: 1 pallet of PCB waste (possibly two pallets at time of shipment)

Original Waste Shipments

Location: 700 South Conejos Street

Waste: Elemental Mercury

Hours of Operation: 0800-1500

Accessibility: Waste storage room accessible by truck

Waste Storage: lab-packed into a 5 gallon bucket

Location: 701 East Las Vegas Street

Hours of Operation: 0730-1600

Accessibility: Depending on the size of the truck, we sometimes have them park on the road (near gate 2) and walk to the building if it is a full size semi truck. Smaller trucks can park near the front (visitors) door of the building.

Waste Storage: All waste containers are light enough to move around by hand or on a cart. We do have a pallet jack and the lab can possibly find a pallet if this would be easier for the driver and if the driver prefers to move the waste in this manner.

I believe this is everything you requested earlier this week. If you need additional information, please let me know and I will provided it as necessary.

Thanks,

Chris Genuardi

Hi Chris.

I provided both of these orders to transportation for these 2 sites.

We will bill you to transport the drums to US Ecology and US Ecology will be billing CO Springs direct for the material they approved to CO

Springs.

Thank you.

> Hi Chris.

Yes, storm cooled it down here in Phx. Very nice.

Yes, you are correct on your statement.

From what we spoke about you said you will have actually 3 pick up areas for the materials you emailed us about.

I have attached a copy of the signed profile for the shipment of elemental mercury. As discussed in our phone conversation last week, I would like to schedule a shipment for the week of July 16-20, 2018, for waste streams below. Please let me know if the mentioned dates align with your "milk-run" schedule.

ADDRESS FOR PICK UP ON US ECOLOGY MATERIAL BELOW: 701 E Las Vegas, Colorado Springs CO

-
- 2 barrels of Metal/Hexavalent Chromium Waste (each barrel = **40 lbs**): shipping to US Ecology in Beatty, NV
- Cadmium Column Waste (quantity 4x columns in a 1 gallon container **<1 lbs**): shipping to US Ecology in Beatty, NV
- 2 barrels of Cadmium Waste (barrel #1 = **42 lbs**, barrel #2 = **36 lbs**): shipping to US Ecology in Beatty, NV

ADDRESS FOR PICK UP ON 2 BELOW: 700 Conejos Street, Colorado Springs CO

-
- 1 barrel of COD Waste (**24 lbs**): shipping to Veolia (Profile 274506)
- 5 gallon bucket of Elemental Mercury **(30 lbs**): shipping to Veolia (attached profile pending approval)

Then you said you would possibly have a 3rd site as well.

Per you previous email you said " I will have two separate shipping manifest ready upon your arrival for each designated disposal facility."

I will let add this information to the orders for Transportation that you will have the Manifests prepared too.

I just need to know the hours of operation, hours of operation for pick up, will materials be on pallets, and semi truck accessible,

Thanks again.

In addition to these five streams, we would like to utilize your transportation service to deliver a pallet of PCB pipe to US Ecology. I can have the PCB profile and associated information to you by tomorrow (like the other US Ecology waste).

You also mentioned you were working on scheduling, so we would like to schedule a shipment for next *Wednesday, 7-18-2018*, if it fits with your transporters schedule.

But before then, I owe you answers to the questions below. I will have this to you by COB, Thursday 7-12-2018.

- Physical address to all pickup locations
- Hours of operation at each facility
- Vehicle accessibility to each facility
- Waste storage on pallets

Hope this is not too much to cram into one email, but thanks again for the help!

Regards,

Chris Genuardi
